Professional Summary

Software Developer with 6+ years of experience building scalable web applications, SaaS platforms, and custom websites using React, NextJS, Laravel, Typescript, WordPress, and AWS. Experienced in full-stack development, API design, performance optimization, and collaborating with agile teams to deliver high-impact software solutions.

Core Competencies

- **Full-Stack Development (React, NextJS, Laravel)**
- Frontend Development (JavaScript, Typescript, HTML, CSS, Tailwind)
- REST API Development & Integrations
- Database Optimization (MySQL, PostgreSQL)
- AWS Deployment (EC2, S3, RDS), Nginx
- WordPress Custom Theme Development
- Performance Optimization & Debugging
- Git, Agile Collaboration, Feature-Based Architecture

Work Experience

NOVEMBER 2019 – PRESENT

Software Developer| HIPE JAPAN INC. | Cebu City

- Developed scalable full-stack web and SaaS applications using React, NextJS, Laravel, and Flutter
- Designed RESTful APIs supporting dashboards, multi-tenant platforms, and mobile-connected systems
- Improved application performance through query optimization, caching, and frontend refactoring
- Built reusable frontend components and maintained feature-based architecture for faster development
- Contributed to a transport booking platform with real-time driver tracking, improving user visibility
- Deployed and maintained applications on AWS, including server setup, SSL, and infrastructure support
- Optimized database performance through indexing, joins, and schema management

Web Development Projects (WordPress, React, Next.js, Shopify)

- Developed custom WordPress, NextJS, and Shopify solutions for client websites and business platforms
- Built custom themes, extended plugin functionality, and integrated third-party services
- Improved Google Page Speed performance scores by up to 80% through frontend optimization
- Supported AI-integrated dashboards that improved reporting and data analysis workflows.
- Collaborated with designers and stakeholders to deliver responsive, business-focused web solutions

JUNE 2018 – SEPTEMBER 2019

Graphic Designer/Artist | Metropolitan Printing Base | Talisay City, Cebu

- Produced print and digital design assets while management multiple deadlines
- Created visual materials supporting branding and marketing requirements
